

How can you help the children in Uganda? There are four ways:

**1:** Sponsor a child in primary school. You pay 17 euros monthly, so that the child can attend school and receive any other help it needs.

**2:** Sponsor a child for 25 euros monthly, so that the child can attend primary or secondary school and receive any other help it needs. For a child in primary school about 8 euros is used to improve the project in general. Other children also profit from this!

You can exchange letters with the child and get a picture. If you do not want to communicate please indicate this. If you sponsor a child you must have the intention to do this for at least one year.

**3:** Sponsor the clinic. There is no fixed amount for this and can also be done in addition to sponsoring a child. The money is used for purchasing medicine, hiring personnel, etc.

**4:** Make a one-off donation.

If you have questions please feel free to contact us.

AIDS  
poverty  
no parents

and still smiling?

## Kibaale Children's Center

In the south of Uganda **AIDS** has struck hard. Diseases like malaria and measles also cause many casualties. Parents pass away and leave their children behind in poverty. In Rakai district 50,000 children have lost one or both parents, from a total of 350,000 inhabitants.

The Kibaale Children's Center (**KCC**) is working hard to improve the situation in Rakai. It searches for sponsors to help the most needy children. The orphans are placed with relatives, but these extended families are too poor to take care of all the children. Each sponsored child receives the help it needs from KCC. We make sure that the child can at least go to school, so that it has a chance to take care of itself later.

The project includes a small **clinic**. This does not only help the sponsored children, patients come from a wide area. This is the only place where they can get treatment and education. In 2001 the clinic was extended with a laboratory.

### Some information about **Uganda**:

Location: East Africa, on the equator  
Inhabitants: 22 million  
Percentage orphans: 7%  
HIV infection rate: 10% to 25%  
Life expectancy: 40 years

KCC works in the area around the trading center **Kibaale**. There is much poverty in this agricultural area, but fortunately there usually is enough food. Drinking water is a bigger problem; there is hardly any clean water to be found. On the KCC project rainwater is harvested and stored in large tanks.

in the nursery school

The **school** at the project includes a nursery, primary, secondary and vocational school. The quality of education is much higher than schools in the neighbourhood. Teachers from other schools are helped to improve their skills.

Although the situation in Uganda is slowly improving, a lot of help from foreign countries is still needed to erase the marks of civil war. And there is still no solution for problems caused by AIDS and malaria. The work of KCC will be necessary for many more years.

### **With your support children in Uganda can smile again!**

While KCC works on a protestant Christian base, help is given to all children, disregarding their religion.

## the ICCF Holland foundation

ICCF stands for International Child Care Fund. It is a small foundation that is dedicated to support the KCC. The board members have been visiting the project to help the work for some time. They returned enthusiastically and want to continue to support the project through the foundation.

The board members are informed about the progress of the project. They visit the project (at their own expense) roughly once a year. Over the past few years we have experienced a constant growth and stability.

The ICCF Holland foundation is registered at the chamber of commerce in Venlo under number 41064588.

The ICCF Holland foundation is run by volunteers. The result is that hardly any money is wasted in Holland. The goal is to send at least 95% of the received money to KCC.

**In past years we managed to send about 99% of funds raised to Uganda!**

Board members:

Chair: Peter Ploeger  
Secretary: Thelma van Petersen-Bos  
Treasurer: Bram Moolenaar
